Dear school director/teacher,

Are you interested in teaching **STEM and screenless ICT ?**
We are happy to share with you our unique educational programme. The programme has been successfully experienced and proven by children and teachers in 3.500 schools in the Czech Republic. **Our STEM program** was **highly appreciated by Barbara Isaacs**, **founding member** of the **Montessori Accreditation and Evaluation Board** (now Montessori Accreditation International).

STEM:

- **come to** experience how to build a technical world by using LEGO© Duplo © bricks
- role-playing architect, electrician, plumber we will use a simple blueprint to build a house equipped with water, waste water and electric system
- we will try to impress you by **"learning by doing" approach**

See our STEM video from our work with children: https://youtu.be/qDVXMz-Hqu4

Screenless ICT:

- find out how digital world surrounding us works
- activities without computers and tablets
- experience easy programming and coding by using walking map grids with coordinates

See our ICT video from our seminar, computational thinking: https://youtu.be/PjeXq-u_hlU, https://youtu.be/9RMaDkA9vsY

For the **spring** and **autumn 2023** session **book your spot now** and

- spend 5 days of hands-on training for teachers focused on technical and digital skills of children aged 4 - 8
- experience new ways to teach children STEM and screenless ICT
- visit Prague, the capital of the Czech Republic
